# HOLLAND & SHERRY

SAVILE ROW · LONDON

The fabrics in this collection are...

## WEATHERPROOF

Protects you from wind, rain, sleet and snow.

## WINDPROOF

The tight construction of the fabric keeps out the wind and hence helps protect from wind chill.

## BREATHABLE

Have a high moisture vapour transmission rate helps keep you dry when active.

## NATURAL 100% COTTON

The benefit of cotton with environmental peace of mind.

## COMFORTABLE

Enjoy the great outdoors and strolling down the high street in equal comfort.

## DURABLE

The fabric is very long lasting. You can expect years of use from a Holland & Sherry trenchcoat.

## QUIET

No “rustle” and is ideal for camera work, hunting or bird watching where noise would be a problem.

## RELIABLE

The fabric’s proven performance over many years means that garments won’t suddenly breakdown unexpectedly.

HOLLAND & SHERRY

SAVILE ROW · LONDON

# TRENCHCOAT COLLECTION

Holland & Sherry is pleased to introduce the first truly effective all weather fabric whose breathability performance remains unsurpassed.

Its secret lies in the uncoated and unlaminated construction. The fabrics are 100% cotton, utilising the finest, long staple fibres, only found in the top 2% of the world's crop. After gentle spinning and doubling, the yarn is woven into a very dense Oxford weave, using up to 30% more yarn than conventional woven fabrics.

The performance of these fabrics results from the properties of cotton fibres which expand when they come into contact with water. The combination of fibres, yarns and weave causes expansion in a uniform manner. This allows the interstices within the fabric to close up, preventing the further passage of water. In addition to this, the fabric is impregnated with a high quality DWR system which enhances the fabric's water resistant properties and increases performance.

The fabric therefore provides excellent protection against the wind, rain, snow and cold.
